- Diabetic patients reduced A1c 0.70 %
- Cholesterol average reduced by 4.4 mg/dL
- Blood Pressure average 4.6% improvement
- BMI average reduced by .071

Success Stories

"My brother-in-law Referred me to GSC. I am not stressed or anxious because I know I have a place to go. Could not afford a doctor, certainly no medication. Before I could not get out of the house, now I can go to the food bank!"

"My life turned upside down when we lost our business. My body started falling apart; I was at the End of my rope. Finally, the health department told me about Good Shepherd.

. What a Blessing! I truly don't know what I would have done without them. Everyone is super nice & don't make me feel embarrassed to be accepting help."
